

DGM Florida is a GSA approved vendor and has a proven track record of delivering electronic solutions for the transportation, handling, storage, production and waste handling of dangerous goods and hazardous materials.

We have worked with numerous organizations globally, including the United States military branches – the Marine Corps and the Navy.

We understand the importance of compliance with global quality and safety standards, especially for the military, and are fully committed to adhering to them. Our software and services meet the following standards:

- ✓ 49CFR, AFMAN 204-24, UN, ICAO/IATA, IMO, ADR, TDG, ADG, and RID
- ✓ EC Standards
- ✓ ISO 9001:2000

Our solutions, which include the software DG Office and accompanying services, have been developed over the course of 20 years, and we are proud to have served the following organizations:

- ✓ Defense Logistics Agency (DLA)
- ✓ United States Marine Corps (USMC)
- ✓ North Atlantic Treaty Organization (NATO)

We understand the importance of compliance with global quality and safety standards, especially for the military, and are fully committed to adhering to them. Our software and services meet the following standards:

DGM's mission is to provide the U.S. military with cutting-edge information technology expertise that ensures safe production, storage, transport, and trade of dangerous goods or hazardous materials.

Our commitment to providing exceptional customer support and service is at the forefront of our operations, and we strive to offer cost-effective solutions that meet the specific needs of our clients.
