

CAPABILITY STATEMENT

DGM Florida is part of the larger DGM family, which has been doing business for 32 years, distinguishing itself as the premiere solution for the handling of and education about dangerous goods and hazardous materials in the Florida area and beyond.

Backed by the DGM brand, which spans dozens of countries worldwide, DGM Florida offers comprehensive packaging, crating, warehousing, and documentation services, as well as expert consultation and in-depth training in the area of dangerous goods protocols, and regulations.

PAST PERFORMANCE/DIFFERENTIATORS

- ✔ DGM has one of the largest hazardous materials networks in the world, with over 75 locations, and maintains working relationships globally with governments and international organizations in all 6 continents.
- ✔ DGM has a seat in the United Nations. This allows the DGM global network to be well ahead of the curve with regards to dangerous goods regulations and changes as they happen.
- ✔ DGM is an IATA. authorized training center, which puts DGM training ahead of the field, since our materials must be approved by IATA. All DGM trainers have completed the most stringent training requirements.
- ✔ DGM offers both classroom and online training courses for shippers, freight forwarders, and those working in the transportation industry. Courses are taught in both English & Spanish.
- ✔ DGM provides hazmat software to NATO (North Atlantic Treaty Organization) and the Royal Netherlands Army, Int'l Cargo Airlines
